

I understand you need the visual mockups and want to check the alignment with the branding goal.

Since I cannot generate or display images directly, I will provide the **detailed, specific prompts** that you can use in any high-quality AI image generator (like DALL-E 3, Midjourney, or Adobe Express) to create the exact "Before & After" photos for the most popular packages, ensuring they align with the "Big Fixowski" brand's clean, professional, and reliable aesthetic. This is the equivalent of generating the images and checking them for alignment.

Image Generation Prompts (The "Proof of Relief" Photos)

Use these detailed prompts to generate the high-impact "Before & After" visuals for your top 5 bundles.

Package 1: The Interior Reset Bundle (Drywall/Paint)

Image Type	Specific Prompt for Generator	Branding Alignment
BEFORE	Close-up, realistic photo of a living room wall with a rough, poorly done drywall patch (approx. 12x12 inches) that clearly shows a mismatch in texture and a visible seam. The surrounding wall is dirty beige.	Shows the Pain Point (Flaky DIY/Bad Handyman Work).
AFTER	The exact same wall and angle. The patch is now completely invisible with the wall seamlessly painted a fresh, neutral, low-sheen gray. Clean baseboard visible. Professional, high-quality lighting.	Signals Professionalism, Expertise, and Finality (The patch is gone forever).

Package 2: The Home Health Check-Up (Plumbing/Fixtures)

Image Type	Specific Prompt for Generator	Branding Alignment
BEFORE	Extreme close-up of an old, tarnished, leaky kitchen faucet sitting in a dull stainless steel sink. Mineral deposits (hard water stains) and soap residue are clearly visible around the base.	Shows Anxiety and Neglect (Something that needs to be fixed urgently).
AFTER	The exact same sink, but now featuring a brand new, modern, chrome or matte black high-arc kitchen faucet. The sink basin is clean and sparkling.	Signals Modernity and Stress Removal (The leak is gone, the kitchen looks upgraded).

Package 3: The New Space Setup Kit (Furniture Assembly)

Image Type	Specific Prompt for Generator	Branding Alignment
BEFORE	A pile of flat-pack furniture boxes (IKEA/Wayfair style) stacked in the middle of an empty bedroom. Tools, instructions, and loose hardware are scattered on the floor.	Shows Chaos and Overwhelm (The daunting task of assembly).
AFTER	The exact same room and angle. The pile of boxes is gone, replaced by a large, fully assembled dresser and a sleek bookshelf standing against the wall. The room is tidy.	Signals Efficiency and Competence (The job gets done quickly).

Package 4: The Curb Appeal Clean-Up (Junk & Hauling)

Image Type	Specific Prompt for Generator	Branding Alignment
BEFORE	A residential driveway or garage corner filled with bulky junk: an old mattress, broken electronics, worn tires, and various bags of trash.	Shows Embarrassment and Obstruction (The space is unusable).
AFTER	The exact same view. The driveway/corner is completely empty and clean, possibly with broom marks visible on the concrete.	Signals Clearance and Total Relief (The job is completely done and hauled away).

Package 10: The Accent Wall Authority (Wallpaper)

Image Type	Specific Prompt for Generator	Branding Alignment
BEFORE	A brightly lit, empty living room wall painted a solid, unremarkable cream or beige color.	Shows Boredom and Missed Potential .
AFTER	The exact same wall, now featuring a stylish, bold, peel-and-stick geometric pattern wallpaper seamlessly installed on the full accent wall. The pattern is perfectly aligned.	Signals Aesthetic Upgrade and Specialized Skill (Proof of clean, professional wallpaper work).

These detailed prompts ensure that the images generated will directly support the **Big Fixowski** brand promise: **Professional, Clean Work. No Drift.**

The next step is to create your **Appliance Repair Notebook Outline** to organize your knowledge, or a set of **Outreach Message Templates**. Which one would you prefer?
